WordPress (Custom Themes, ACF) • PHP • JavaScript • Tailwind CSS • HTML • CSS (SCSS) • Git • CI/CD • Shopify • HubSpot CMS • Web Accessibility (ADA)

I'm a Senior Web Developer with 10+ years of experience leading web projects for clients across a variety of industries, from pre-sales project scoping and budget estimates, through coding, site launches, and post-launch maintenance support. Built custom WordPress themes the right way with clean code, reusable components, and usable documentation. I help the company work better by bringing in tools and processes that help teams do more without burning out. I regularly mentor developers and run client trainings.

PROFESSIONAL EXPERIENCE

Applied Imagination

Remote

Senior Web Developer

Jun 2022 – Jan 2026

- Served as technical point of contact across pre-sales and discovery, development, launch and client handoff phases.
- Evaluated design mockups and feature requests to determine scope, complexity, and budget impacts prior to client review and approval.
- Led post-launch client training sessions, walking through CMS usage, publishing workflows, and technical knowledge transfers for non-maintenance clients.
- Onboarded and mentored new developers, guiding them through business and coding standards, and assisting with complex debugging issues.
- Architected reusable components for complex, ACF-driven WordPress themes for faster builds and CMS interfaces clients can easily manage themselves.
- Implemented CI/CD workflows using GitHub Actions to catch errors before deployment, and streamline multi-dev projects.
- Applied ADA Level A standards into base theme and design review process, to make accessibility a default deliverable instead of a billable add-on.

Crowd Favorite

Remote

Senior Web Developer

Sep 2021 – Jun 2022

- Resolved site-crashing errors from unmaintained plugins, replacing them with custom-coded solutions.
- Conducted monthly audits to identify third-party scripts and tools that slowed site performance.
- Implemented feature changes to custom WordPress plugins to extend plugin capabilities and resolve client pain points.

Socius Marketing

Senior Web Developer

Tampa, FL

Oct 2019 – Sep 2021

- Ensured smooth website launches across multiple hosting platforms, including DNS configuration.
- Integrated third-party APIs to enhance site functionality and support data-driven features.
- Modernized development workflows using Gulp to automate build processes, and to compile and minify JS / SCSS.
- Created developer knowledgebase to onboard new developers quickly in coding practices and cross-department communications.

Web Developer

Jul 2016 – Oct 2019

- Coded custom theme WordPress sites, based on Photoshop and XD design mockups.
- Integrated website forms with CRMs (ex. Salesforce, MarketSharp, HubSpot).
- Expanded custom base theme library by coding new, reusable modules.
- Provided project post-mortem analyses to identify and track workflow improvements.

EDUCATION

University of Central Florida, Orlando, FL

Bachelor of Science – Computer Science (2016)
